

# Cookie Policy

## What are cookies?

Cookies are small files, generally of letters and numbers, downloaded onto a device when users access the websites. They are widely used in order to make websites work, or for the website to work more efficiently. Cookies are created when a user's browser loads a particular website. The website sends information to the browser which then creates a text file. Every time the user goes back to the same website, the browser retrieves and sends this file to the website's server. Cookies have several functions, including, among others, collecting information of and remembering users' preferences.

I'm using cookies to perform certain functions, namely:

- improve my website;
- collecting information about how you use this website in order to provide you with a better experience.

These cookies are listed below:

## 1. Strictly necessary cookies

These cookies are required in order for remembering your actions in this website during one session (for example: agreeing or disagreeing to cookie consent and don't displaying it when you open this website again).

## 2. Performance cookies

This website uses performance cookies, primarily Google Analytics cookies, to collect information about how users use this website such as:

- Parts of webpage clicked
- Number of visits
- Length time of each session
- Clicked links

With a view to improving my website and providing users with best possible experience. For more general information on Google Analytics privacy policy please click [here](#).

**Anyway, please know that I have configured the Google Analytics service in such a way as to avoid your identification by masking the IP address of any user browsing this website.**
